Plenty for children

In a partnership with the Heritage Language Schools Eindhoven (HLSE) and the Reading Pier, book collections in English, Italian, Chinese, French and Romanian have been compiled for children aged 0 to 12 years old. More to come in other languages!

Storytime

The library organises storytime in Dutch, English, Chinese, Japanese and Italian. Perhaps more languages will follow. Check our website for an up-to-date program! More fun: after reading there is usually time for crafting or other creative activities.

MakersClub

Each Friday and Saturday children can join our MakersClub at De Witte Dame, the ultimate workplace where kids can use all of our materials and tools to create their own inventions.

Your library in one app

Do you prefer digital reading or listening to an audiobook? As a member of the library, you get free access to English ebooks and audiobooks via the BorrowBox app. In here, you can also find new releases and trending titles. Besides English, you can also find ebooks and audiobooks in other languages.

(Digital) reading & listening

Are you a keen reader? The library in De Witte Dame has an extensive collection of English novels and thrillers, also for young adults.
